What's New In SEOContest Tracker?

SEOContestTracker is a free tool for SEO & Webmasters. The application monitors online reputation (SERP). The system monitors different websites. If there is any SEO campaign initiated against one of the websites, an email is automatically sent to the corresponding admin. Monitoring of online reputation is possible through the Backlinks. The monitoring is done automatically. When a SERP post a negative review, the application will immediately send an email. The application also monitors a series of other parameters. The application will automatically detect the launch of a SEO campaign and report as soon as possible. This application can be used in company, as a simple personal tool for SEO and Webmasters. Online reputation is checked using the most important Top search engines. SEOContestTracker can be used to detect penalties or Backlink manipulations that affect rankings in the SERP. SEOContestTracker has an unique reporting system, thanks to its integration with a series of backlink monitoring tools: ⬜ Scrape Backlinks Pro (⬜ Backlink Checker (SEOContestTracker can be used to monitor the performance of your own web property thanks to the integrated Web Analytics system that we offer to our clients. This feature is called "Monitoring Web Analytics". Google like us to put a visible link on your site, and Google generally favors sites with a visible link over sites that don't have any visible link. If a link on a website is removed or disfigured, this will be seen by the Google algorithm. Most SEO websites, including ours, use a webmaster tool that allows a site owner to see the backlinks pointing to their website. This tool allows the site owner to monitor backlinks and remove those links if needed. We integrate a similar tool into our backlinks counting system. Examples of Webmaster Tools: ⬜ Scrape Backlinks Pro ⬜ Site Map ⬜ Webmaster Tools ⬜ Analytics ⬜ SEOMoz (or other SEO that detects the link pointing to you and indicates how many visitors each link has), ⬜ Position Monitoring (You can use this tool to monitor the ranking of your websites (and your competitors' websites if you have any) on the popular search engines (Google,
